Direct Print

Natural Oak

Sugar Maple

Java Glow

Desert Glow

Autumn Glow

Cabinet Maple

Using our direct printing process, Flakeboard produces decorative woodgrain prints on our high quality substrates. Utilizing a unique 9 stage process and high quality printing inks, we can produce a wide range of custom woodgrain patterns to meet your specific requirements. Ideally suited for casebacks and drawer bottoms, our acrylic or UV cured topcoats provide the durability required for today's furniture and kitchen cabinet industries. Available in 4' or 5' widths, we have the flexibility to produce an optimum panel size to minimize waste. Flakeboard can also provide Cut-to-Size and Pegboard programs to suit your needs.

FUSION For your convenience, we stock three dynamic designs under our exclusive Fusion program: Cabinet Maple, Autumn Glow and Desert Glow. Fusion brings together design matches in direct print, thermally fused melamine and decorative paper overlay finishes. As well, high pressure laminate, RTF vinyl and edgeband coordinates are available, providing a seamlessly designed project.

Designs depicted are subject to availability. Please contact your sales or customer service representative for standard and custom design options.

LEED POINT CONTRIBUTORS

SKYBLEND PARTICLEBOARD:

- SCS Certified
- 100% pre-consumer recycled wood fiber
- Third party verified low formaldehyde emissions (0.00-0.001 ppm)
- Available from Roseburg in raw particleboard, hardwood plywood, thermofused melamine or with UV cured finishes
- Available from Aetna Plywood 1/4" through 1-1/8" thick raw particleboard and 1/2" & 3/4" white thermofused melamine

SKYBLEND LEED CREDIT AND POINT INFORMATION

LEED CATEGORY	INTENT	REQUIREMENTS	POSSIBLE CREDITS / POINTS	SKYBLEND SOLUTION
<i>Indoor Environmental Quality IEQ 4.4</i>	Improve indoor air quality	Composite wood products must contain no added urea-formaldehyde resins	1 point	SkyBlend has no urea formaldehyde added during the manufacturing process
<i>Materials and Resources MR 4.1</i>	Increase the use of products that incorporate recycled content material	Sum of recycled content † constitutes at least 10% of materials in the project	1 point	SkyBlend is SCS certified 100% pre-consumer recycled wood fiber*
<i>Materials and Resources MR 4.2</i>	Increase the use of products that incorporate recycled content material	Sum of recycled content † constitutes at least 20% of materials in the project	1 point in addition to MR 4.1	SkyBlend is SCS certified 100% pre-consumer recycled wood fiber*
<i>Materials and Resources MR 5.1</i>	Increase the use of materials that are extracted and manufactured within the project region	Use min. of 20% of combined value of construction materials and products manufactured within a 500 mile radius	1 point	SkyBlend is manufactured in Dillard, OR and may contribute to points based on proximity of the project
<i>Materials and Resources MR 5.2</i>	Increase the use of materials that are extracted and manufactured within the project region	In addition to requirements of MR 5.1, use a min. of 10% of the combined value of construction materials and products extracted, harvested, or recovered, as well as manufactured within 500 miles of the project	1 point	SkyBlend wood fiber is recovered near the manufacturing facility in Dillard, OR and may contribute to points based on proximity of the project

* "pre-consumer" is replacing the old term "post-industrial".

This information is correct to the best of our knowledge. For more information regarding LEED™ see www.usgbc.org.

MEDEX MEDIUM DENSITY FIBERBOARD:

- SCS Certified
- 100% post-industrial/pre-consumer recycled wood fiber
- No added formaldehyde
- Moisture resistant
- In-stock at Aetna Plywood 3/8" through 3/4" thickness

BEADED PANELS

The look of fine tongue and groove woodwork with the installation ease of a plywood sheet. That's the beauty of Columbia Forest Products' Beaded Panels. Check out the surface and you'll find the lasting beauty of Columbia hardwood veneers...and that's no illusion.

Good looks and installation ease are just the beginning. Columbia's Beaded Panels feature a wide variety of decorative hardwood faces and backs machined with a 1-1/2" or 3" on-center beaded groove pattern. The cutting heads are calibrated to ensure pattern uniformity across the entire sheet for a convincing illusion of tongue and groove woodwork that matches any existing species used. And since Beaded Panels are unfinished, close color matching with existing molding and millwork is possible. You can finish them or use them in painted applications.

Beaded Panels can be used for wall paneling, wainscoting, cabinet doors, cabinet backers or anywhere you wish to replicate the tongue and grooved appearance of fine woodwork.
