HOT HOT HOT Alder Plywood

Fine face Alder veneer hardwood plywood from the Pacific Northwest.

Attractive and easy to work with, Alder is ideal for furniture and cabinetry. Its fine, light grain pattern and consistent color work well with any interior design, from rustic to contemporary.

With its pleasingly uniform colors in hues ranging from honey to pale brown and no visible boundary between heartwood and sapwood. Alder is easy to match and even easier to finish, accepting an impressive array of finishes from clear to dark cherry.

Alder ranks high in every major area of workability, including machining, sanding and gluing. Alder is the perfect choice for even the most complex machining and finishing projects

There are several choices in which you can purchase Alder from us.

Tell us how you would prefer it!!

- **Book matched or plank matched**
- **“A”, “B”, or “C”/Rustic grade**

**Aetna is now stocking Alder
with “A” Plank matched faces and
“A” Book matched faces**

Any way you cut it – you retain strong, vibrant colors.

Spectratech Color MDF offers all the benefits of Great Lakes MDF's Premium products with intense "color to the core" for a wide variety of new creative possibilities.

Spectratech Color MDF offers full-depth tinting of industrial panels for furniture, store fixtures, interiors and other commercial applications. This allows for shaping and cutting of the MDF (edges can be mitered, for example) while retaining the vibrant color throughout.

Since the color is added at the start of the manufacturing process, Spectratech Color MDF retains the strength of conventional MDF panels and adds brilliant color.

Lasting beauty: specially designed light-stable colorants were chosen to minimize the effects of sunlight and UV radiation.* Spectratech Color MDF is made to be touched up and refurbished. Scratches can be sanded out and a finish re-applied.

Full-depth color eliminates the need for skin-deep finishes such as stains and laminates. When you apply a clear finish such as urethane, lacquer or clear powder coat, the colors become vivid and beautiful.

* Care should be taken to select a clear finish that will provide protection from these elements.

Available colors:

In response to customer requests, we've added a new color to our lineup: an attractive warm grey

LUMBER

With a focus on only high quality material, with the color and yield that our customers expect, we stock an extensive inventory of hardwood and softwood solids.
