# AETNA Is Stocking Homasote 440 Sound Barrier®

**YESTERDAY'S NEWS IS TODAY'S COMPETITIVE EDGE.**

Homasote 440 Sound Barrier® is made of 100% post-consumer waste paper, without asbestos or urea formaldehyde. So it not only stamps out noise pollution, it is safe and environmentally sound.

**BREAKTHROUGH BUT VIRTUALLY UNBREAKABLE.**

Homasote 440 Sound Barrier® is the lightweight, structural sound deadening material that replaces lightweight concrete at a fraction of the cost. It works with almost any flooring system and has twice the R value of wood. Unlike concrete, it can be installed quickly and easily by the same crew laying the plywood sub-floor, for faster lower-cost job completion. It's so strong, lightweight, impact-resistant and easy to work with, it's hard to believe how effective it is.

Code	Size	Unit Size	Price/piece	Price/unit
<b>17 14 200</b>	1/2" 48 x 96	60	\$21.75	\$20.50

Thickness	Sizes	Weight lbs./sq. ft.
OTHER SIZES AVAILABLE AS SPECIAL ORDER		
<b>1/2"</b>	4 x 4, 4 x 8, 4 x 12, 4 x 10, 8 x 12, 5 x 8	1.2
<b>5/8"</b>	4 x 8, 4 x 12, 8 x 12	1.5

**Sound Deadening**

Deadens sound in residential or commercial buildings. Used in single or multi-family housing, professional buildings. Useful in room partitions.

**Bulletin Boards**

440 becomes the quick, inexpensive, tackable answer, exterior or interior for any home, office, workshop, factory, etc. Can be painted.

**Fabric Wrap  
Wall Treatments**

Ideal substrate for custom textured fabric wrap panels. Provides sound deadening, insulation and tackability.

**All 1 sided items with a Balancing "Brown Paper Backer"**

### Unique Product: Ultra-Core MDO.

Plum Creek plywood is constructed from prime inland Group 1 western softwood veneers known for their tight grain and small knots. Furthermore, Plum Creek's Ultra-Core technology creates continuous, composed crossband veneers for virtually "gap-and-lap-free" cores.

Plum Creek's Ultra-Core MDO is the result of pre-composed crossband cores and an automated lay up process that together minimize core gaps and provide consistently high levels of core integrity. Merchantability, weatherability, durability and thickness tolerance are all enhanced compared to conventional MDO cores.

#### Plum Creek Ultra-Core MDO gives you what you're looking for:

- Inland western softwood species, featuring tighter grain for higher strength and weatherability.
- Ultra-Core construction means fewer and smaller gaps for increased strength, durability and minimal core telegraphing.
- 2-step overlay process means smoother, more consistent faces.
- Dedicated MDO press allows controlled production runs for greater quality and consistency.

#### Paint/Lamination/Cut-up Applications

- Ultra-Core construction reduces core voids and gaps to minimize waste in cut parts and increase weatherability and durability.
- 2-step face construction and dedicated press assure consistently high levels of face smoothness for paint and lamination.

\* Pricing based on buying full units or all quantities available. Subject to availability

We fulfill the function.  
You create the form.

passion  
for panels®

The most recognized and specified non-structural FR panel, Flakeboard's Duraflake FR and its companion, Premier FR let you streamline your designs by offering a wide range of sizes, exceptional strength, smooth finishing surfaces and excellent workability. Whether you cut, drill, bevel or rout them, Duraflake FR and Premier FR maintain their fire rating.

Made of 100% recovered and recycled wood, Duraflake FR and Premier FR may also be applied toward LEED credits.

Call us at 1.800.268.9830 to request a sample.  
For detailed specification sheets, visit [www.flakeboard.com](http://www.flakeboard.com)

Duraflake® FR | particleboard  
Premier® FR | MDF ·

Office buildings, schools, restaurants,  
elevators. Public spaces vary widely  
in size – so do our fire-rated panels.

## LEED POINT CONTRIBUTORS

### SKYBLEND PARTICLEBOARD:

- SCS Certified
- 100% pre-consumer recycled wood fiber
- Third party verified low formaldehyde emissions (0.00-0.001 ppm)
- Available from Roseburg in raw particleboard, hardwood plywood, thermofused melamine or with UV cured finishes
- Available from Aetna Plywood 1/4" through 1-1/8" thick raw particleboard and 1/2" & 3/4" white thermofused melamine

### SKYBLEND LEED CREDIT AND POINT INFORMATION

LEED CATEGORY	INTENT	REQUIREMENTS	POSSIBLE CREDITS / POINTS	SKYBLEND SOLUTION
<i>Indoor Environmental Quality IEQ 4.4</i>	Improve indoor air quality	Composite wood products must contain no added urea-formaldehyde resins	1 point	SkyBlend has no urea formaldehyde added during the manufacturing process
<i>Materials and Resources MR 4.1</i>	Increase the use of products that incorporate recycled content material	Sum of recycled content † constitutes at least 10% of materials in the project	1 point	SkyBlend is SCS certified 100% pre-consumer recycled wood fiber*
<i>Materials and Resources MR 4.2</i>	Increase the use of products that incorporate recycled content material	Sum of recycled content † constitutes at least 20% of materials in the project	1 point in addition to MR 4.1	SkyBlend is SCS certified 100% pre-consumer recycled wood fiber*
<i>Materials and Resources MR 5.1</i>	Increase the use of materials that are extracted and manufactured within the project region	Use min. of 20% of combined value of construction materials and products manufactured within a 500 mile radius	1 point	SkyBlend is manufactured in Dillard, OR and may contribute to points based on proximity of the project
<i>Materials and Resources MR 5.2</i>	Increase the use of materials that are extracted and manufactured within the project region	In addition to requirements of MR 5.1, use a min. of 10% of the combined value of construction materials and products extracted, harvested, or recovered, as well as manufactured within 500 miles of the project	1 point	SkyBlend wood fiber is recovered near the manufacturing facility in Dillard, OR and may contribute to points based on proximity of the project

\* "pre-consumer" is replacing the old term "post-industrial".

This information is correct to the best of our knowledge. For more information regarding LEED™ see [www.usgbc.org](http://www.usgbc.org).

### MEDEX MEDIUM DENSITY FIBERBOARD:

- SCS Certified
- 100% post-industrial/pre-consumer recycled wood fiber
- No added formaldehyde
- Moisture resistant
- In-stock at Aetna Plywood 3/8" through 3/4" thickness
