CLEAN AND BEAUTIFUL

Kirei Board is the new face of contemporary design: A beautiful natural material made with renewable, non-toxic components

Strong, lightweight and environmentally friendly, Kirei Board is an excellent substitute for wood in nearly any finished product.

Ideal uses for Kirei include:

- Cabinetry
- Furniture
- Paneling
- Finished products
- Store displays
- Restaurant interiors
- Interior wall coverings
- Office dividers
- Home decoration
- Flooring

ENVIRONMENTAL BENEFITS

Kirei Board reduces forest clear-cutting, air pollution and landfill use. The sorghum stalks used in the manufacture of Kirei Board are a rapidly renewable resource left after the edible portion of the plant is harvested.

REDUCED WASTE

Until now, these stalks have been discarded or burned, adding to landfill waste and pollution. Kirei Board helps reduce this waste and ease deforestation by substituting for wood.

ZERO FORMALDEHYDE

In addition, Kirei Board is made using a non-toxic adhesive that does not contain formalin, helping reduce toxic formaldehyde VOC's released into the ambient indoor air.

GREEN BUILDING

Kirei Board can be an excellent way to help your projects qualify for LEED credit for environmentally friendly construction.
