## UV-WOOD IN STOCK

### Pre-finished to give you a big head start.

UV WOOD is pre-finished with acrylate epoxy and cured with ultraviolet lights. This saves you valuable time and money, and eliminates exposure to harmful VOC emissions. And because it's pre-finished, UV WOOD is perfect for any application in which a clear, durable finish is required, such as:

- Cabinets
- End panels
- Vanities
- Shelving
- Case goods
- Drawer parts

Aetna now offers UV WOOD in virtually any combination of specie, grade and core. We currently stock UV WOOD in medium gloss, 48-1/2" x 96-1/2" oversize.

Unit size is 36 pieces for all items.

### NEW ITEM

# MICORE DOES IT ALL!

Micore 300 Board is a superior substrate that offers outstanding resilience, excellent machinability, high “k” factor, heavy density and best surface hardness of any Micore board. Its smooth surface, particularly when sanded and coated, laminates easily with various finish materials such as vinyl, fabrics, and steel. It readily accepts water- or solvent-based adhesives.

**Micore 300 is:**

- More than 50% lighter than Gypsum panels and almost 50% lighter than particle board
- Better than Gypsum panels in workability and sound absorption
- Better than particle board and other wood fiber boards for flame spread index\* and sound absorption

\*Micore 300 meets Class A Burning Characteristics per ASTM EB4 (Flame Spread index of 25 and Smoke Developed Index of 20).

**Micore 300 improves the quality and performance of applications such as:**

- Fabric and vinyl-covered wall panels
- Office dividers
- Chalk boards and many other applications
- Tackboards

**Aetna now stocks Micore 300 in the following sizes:**

- 3/8" 48 x 96
- 1/2" 48 x 96
- 1/2" 48 x 120
- 7/16" 48 x 120
- 3/4" 48 x 96
