SAVINGS

AETNA + 60"s™ = \$SAVINGS

Introducing the 60"s™ a line of 60-inch-wide hardwood plywood from Aetna Plywood. These five-foot-wide panels can dramatically improve yield and reduce labor costs...which just happens to help improve profits. In fact, they're the ideal option for manufacturers looking to lower raw material and labor costs, as well as reduce waste. Of course, having greater yield doesn't

mean much without quality. And the veneer used in the face are of superior quality. They're available with either particleboard or MDF cores and manufactured using state-of-the-art technology. Plus, they're available with most major rotary and plain sliced veneers, as well as paper backing, for options that make them perfect for almost any project.

ALL PANELS ARE 1/2" OVERSIZE

60's PRODUCE BETTER YIELDS

This illustration is an example of increased yields for a 19-1/4" x 31-5/8" component utilizing a 5' x 8' panel. If 1,700 pieces were required, 284 four-foot panels would be used vs. 189 five-foot panels.

That's 95 fewer panels to handle with a 16% improvement in yield.

New 95% yield 5' x 8' Panel

Standard 79% yield 4' x 8' Panel

Features & Benefits

- * Better yield per panel for reduced waste and improved profits
- * Multiple core and veneer choices to fit a variety of applications
- * Large production volume for availability and quick delivery
- * Small unit quantities available so you only purchase what's needed
- * Available in a variety of hardwood face and back combinations, including paper backing

Pricing good through December 31, 2010 as supplies last.

BACK IN BLACK BLACK TINTED MDF BACK IN STOCK

Black TINTED Premier MDF manufactured by Flake board has the same physical properties as Premier MDF and is specially tinted during the manufacturing process producing a board that is entirely black.

Applications — As a design feature where you would normally use MDF or any fixture where you would spend time and money painting or covering up a revealed edge such as grooves in wall paneling.

In-Stock

- 39-14-927 1/2" 4 x 8 Black Tinted MDF
- 39-22-928 3/4" 4 x 8 Black Tinted MDF

Please call us for samples or a quote!

Black tinted Premier MDF is **NOT** designed for exterior applications.

Premier Plus Moisture Resistant MDF & Duraflake MR Particleboard

Aetna has again expanded its inventory of Specialty Industrial Panels to offer you the following for immediate delivery. Great physical properties for the performance you need, Moisture Resistant qualities and greater value over other MR products!

- 39-12-520 3/8" 4 x 8 Premier MR MDF
- 39-14-520 1/2" 4 x 8 Premier MR MDF
- 39-18-521 5/8" 4 x 8 Premier MR MDF
- 39-22-520 3/4" 4 x 8 Premier MR MDF
- 38-18-549 5/8" 4 x 8 Duraflake MR Particleboard
- 38-18-903 5/8" 5 x 8 Duraflake MR Particleboard
- 35-22-590 3/4" 4 x 8 Duraflake MR Particleboard
- 38-22-751 3/4" 30-1/2 x 121 Duraflake MR Particleboard
- 38-22-841 3/4" 25 x 145 Duraflake MR Particleboard

Please call us for a sample or a quote.

MR MDF & MR PB is **NOT** designed for exterior applications.

Pricing good through December 31, 2010 as supplies last.

PANELS DESIGNED FOR HUMIDITY AND MOISTURE

When looking for some of the best performing, moisture-resistant industrial panels for your industrial end use applications, Flakeboard has an MR option that's right for you. All our MR products deliver the flexibility, stability, durability and performance customers have come to expect from Flakeboard panels. If you are sourcing a moisture resistant substrate, we have a selection that addresses your kitchen, bath, laboratory cabinet and/or other high humidity environment needs.

MR choices from Flakeboard include:

- **Duraflake® MR** – this unique three-layer panel particleboard offers exceptionally smooth faces for a wide range of quality finishes for cabinets, fixtures and furniture components. Panels 9/16" and greater meet the AWI specification for premium countertop grades with a thickness swell value of 5% or less, and less than 10% for water absorption (ASTM D 1037 24-hour water submersion).
- **Duraflake® MZ** – a three layer engineered panel with exceptional physical and mechanical properties. Suitable for mezzanine deck applications requiring superior strength and excellent dimensional stability.
- **UltraPine® MR** – an economical particleboard offering made with the latest production technologies and automation tools to deliver versatility and superior mechanical properties.
- **Premier® MR** – a premium medium density fiberboard that offers excellent surface properties for deep detailed profiling of cabinets, fixtures and furniture components.

VINYL-CLAD DRAWER BLANKS

Improve Your Quality • Cut Your Costs

The Vinyl-Clad Advantage

- Vinyl is fully wrapped 360° around the drawers into the groove
- Moisture and stain resistant
- Reduced labour costs
- Durable surface wipes clean in seconds
- Avoids time-consuming expensive finish application
- No edgebanding
- Snag-free interiors
- Crisp, professional look
- No groove routing required

“PAPER OR PERFORMANCE ??”

Whenever you use paper backers — thin paper backers with no flexibility — how much is wasted? You know they get damaged and wasted. And, can you get the sizes you really need? **You need a Consistent Supply Choice with lots of inventory in multiple sizes.** AETNA’s Polybak Backers are the highest performing & we offer more size options than any source in the Midwest.

	POLYBAK 90	Typical paper
Thickness	.024" +/- .003	.020" +/- .003
GREENGUARD® certified	Yes	No
Added Formaldehyde?	No	??
Formaldehyde Resin Content (from MSDS)	0%	10–50%
Tensile Strength (lbs/lineal inch)		
Machine Direction	362	100–125
Cross Direction	184	70–80
Water Absorption	24%	71%
Flexibility	Excellent!!	Limited
Breakage Resistance	Excellent!!	Limited
Paintable?	Yes	??
Volatile Content	0%	unknown
Stock sizes to Improve Yield	9 (Nine!!)	1 or 2 or 3 ??

This is why PB90 performs better than typical paper backers. POLYBAK is your **best value option**. **You will reduce damage and improve your yields** with High Performance POLYBAK.
