HARDWOODS ON OSB

Stocked by Aetna Plywood

Aetna Plywood is now stocking hardwood plywood on a new core. Oriented Strand Board has been successfully used as a core for years now. It has proven itself as a viable option.

CODE	ITEM	UNIT	less than unit	1 unit +
05 22 910	3/4" 4 x 8 PS Red Oak B-2 OSB	30	\$51.30	\$47.90
06 22 910	3/4" 4 x 8 RC White Maple C-2 OSB	30	\$46.60	\$43.50
09 22 910	3/4" 4 x 8 PS Cherry B-2 OSB	30	\$62.75	\$58.60

Compared to Veneer Core Plywood

- Flatter
- Better thickness tolerance
- No core transfer (telegraphing)
- Less expensive

Pricing good through April 29, 2011 as supplies last.

PLYWOOD

RUSSIAN BIRCH

100% Birch Panel

Baltic Birch is an All-Birch plywood panel from Russia. The color of panels is carefully selected to provide a deep white, uniform pattern in order to meet the requirements of elite furniture manufacturers. The panel is made with many plies (ex. 18mm has 13 plies.) This provides a unique combination of strength, flexibility, and a perfect edge.

Due to very cold conditions in Russia, there is a shortage in plywood flowing in. Also, there are many other economic factors that are adding up to price increases right now.

SPECIALS

SPECIALS	ITEM	UNIT SIZE	1 UNIT	2+ UNITS
61 12 118	9mm 5 x 5 Russian Birch BB/BB	44	\$ 17.20 ea.	\$ 16.10 ea.

61 22 420	18mm 4 x 8 Russian Birch S/BB	22	\$ 60.00	

Baltic Birch Veneer Grade Summary

Grade B This is a selected one-piece face, which is generally light and even in color. Some very small, closed pin knots may be allowed, as well as some brown streaks. No patches, voids, or mineral streaks are allowed. The surface is well sanded.

Grade BB This is a one-piece face, which is generally light and even in color. Occasional pin knots and mineral streaking is allowed. All open knots and defects other than those allowed in grade B have been cut out and replaced with oval patches. The patch veneer is the same grade and specie, and is typically of the same color. The surface is sanded.

Grade CP This is a face that has been graded out from BB for small defects and mineral streaking. CP typically has more patches than grade BB that may not always be matched for color. Some splits of less than 0.5mm are allowed. The surface is sanded.

Grade S This is very close to a "B" grade. Allows 4 patches max.

Pricing good through April 29, 2011 as supplies last.

AETNA PLYWOOD INTRODUCES A NEW PANEL FROM COLUMBIA FOREST PRODUCTS BIRCH VALUE CORE PLYWOOD

Features & Benefits

MDF Crossbands: Hide or eliminate show-through of inherent characteristics in veneer core substrates.

Oversized Panels: Our panels are 48.5" x 96.5", allowing for flexibility and optimization.

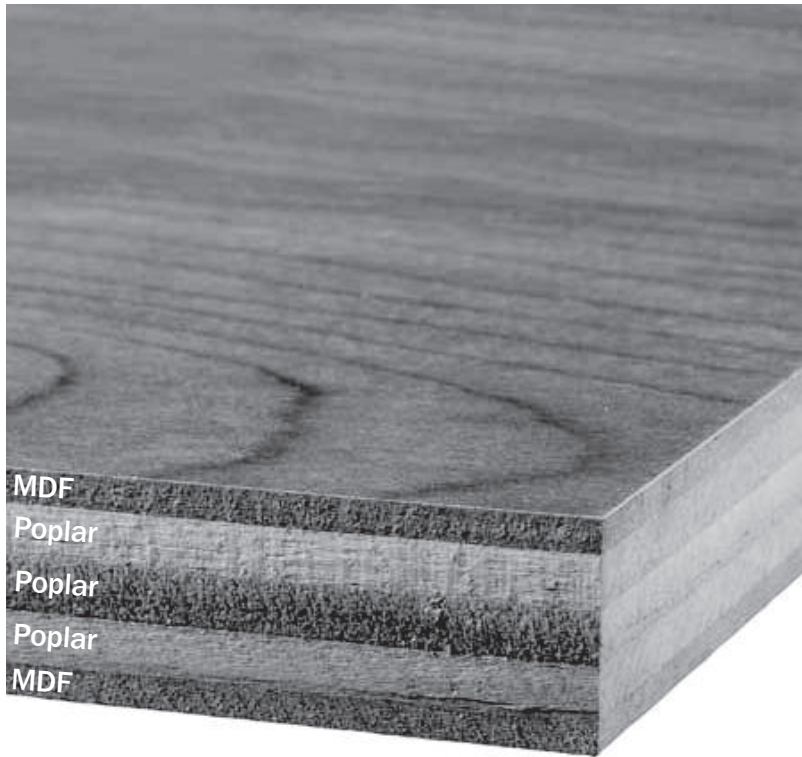

Finish: No matter if you use pre-finished panels or apply the finish in the shop, you will notice the smoother, richer look that ValueCore provides.

Grade: D-3 or better (you'll notice some C+ faces and better). A "higher end" commodity panel.

Species: Available in Natural Birch only, the most requested commodity species.

CARB P1 compliant: From a source you can trust.

Special orders: If you need a specific thickness, species or grade, call us and we will build our ClassicCore IV panel made to your specifications.

Specifications

Construction: Hardwood plywood face and back, crossbands are 1/10" MDF, core is domestic hardwood veneer.

Thickness: 3/4"

Species: Natural Birch only

Grade: D-3 or better

Panel Size: 48.5" x 96.5"

Typical C-2 Natural Birch Face

ValueCore™ is a new combi-core panel construction featuring thin MDF crossbands under the face and back to provide exceptional smoothness on the natural birch veneer face. This panel offers the hard-working grade you need and the species you want at an exceptional value.
