

UV Wood panels employ a durable VOC – free clear coat that brings out the warmth and beauty of real wood veneers. This tough finish is ideal for cabinet box interiors.

Benefits & Features

Resistant to scratches and chip out.

Overspray can be easily cleaned with acetone.

Reduction in labor time and costs.

Increased production and efficiency.

A real wood alternative to melamine box interiors or those using low basis weight papers.

Well-balanced and remain flatter than Melamine one-sided panels.

Reduced VOC emissions.
