

Premier Eurocase

Incredibly smooth and soft to the touch, UltraMatte by Premier EuroCase is a sophisticated surface that combines beauty and durability.

The statement-making series uses the most scratch-resistant acrylic material with an outstanding chemical resistance and anti-fingerprint properties designed for everyday use. The panels are laminated in a Class-100 cleanroom to a premium quality MDF core with a low surface variance, so the surface is not flawed by substrate imperfections.

The collection is currently available in 14 color options including four metallics. Finished edges can be completed with matching laser edgebanding to look like a solid piece of acrylic. UltraMatte can be purchased as panels, cut-to-size doors, peel & stick sheets, miter folded pieces, and other custom components.

UltraMatte Acrylic Panels

Extremely Scratch and Chemical Resistant | Soft-Touch Feel | 14 Colors

- Clear hardcoat top layer for superior resistance to everyday scratches
- No change to the surface after extensive chemical testing, including acetone
- Color richness and UV stabilized
- Anti-fingerprint properties
- Peel coat protected during machining and installation
- Manufactured in a state-of-art cleanroom environment
- Easy to clean, low-maintenance material
- Available as panels and cut-to-size components
