MATERIALS FOR RESIDENTIAL

AETNA

BUILDING SOLUTIONS

We Have What It Takes

HOME SWEET AETNA

There’s no place like where we live. It’s where families bond, friends gather, and memories are made. Whether it’s a home, apartment, or condo, every living space should be a safe and welcoming environment, packed with personality and materials that endure.

At Aetna, we offer everything under one roof – the solutions, the support, and custom capabilities that bring a “wow” factor into residential environments. When integrated together, materials do more than cover a space – they give living areas an identity people are proud to own.

Whether your vision is traditional or contemporary, subtle or bold, in the suburbs or city, there’s a reason Aetna is a household name.

The luxury collections by Premier EuroCase offer the perfect balance of style and durability in an incredibly fast turnaround time. Made in North America using only the highest quality materials, latest technologies and advanced manufacturing processes, every piece produced by Premier EuroCase is guaranteed to leave an impression.

PE Premier Eurocase

These exceptional panels consist of a premium quality MDF substrate with a co-extruded polymer high-gloss acrylic top layer. The core material is carefully selected by Premier to have low surface variance, so the surface is not flawed by substrate imperfections.

The panels are PUR (polyurethane) laminated inside a Class-100 (ISO 5) cleanroom, which is a manufacturing process that guarantees the panels are as close to a perfect product as technologically possible.

Both panel collections are available in a multitude of different colors options. Standard panel size is 4’ x 8’ available in 1/4” and 3/4” thicknesses. We can process panels into finished components, such as cabinet doors and drawer fronts, with matching laser edgebanding.

Both collections are well-suited for interior vertical surfaces such as kitchen cabinets, vanities, closets, furniture, as well as store fixtures & displays.
