

 **Wilsonart**[®]
THINSCAPE[®] Performance Tops

Inspired by the slim silhouette of modern counters, Wilsonart® THINSCAPE® Performance Tops bring European design to the US market for the first time.

THIN IS IN

More durable than porcelain and more affordable than natural stone, THINSCAPE® Performance Tops are luxury for less. The ½” profile creates a minimal look with clean lines and subtle seams, making it the perfect complement for today’s thinner cabinet profiles.

THE MODERN KITCHEN

Today's home marries modern aesthetics with the advantages of new technologies. Available in 12 ultra-thin decorative slabs, THINSCAPE® Performance Tops offer the durability of hard surface slabs with the look of natural stone, wood, or metal.

DESIGNED FOR DURABILITY

Resistant to moisture, stains and scratches, THINSCAPE® Performance Tops hold up to heavy use in kitchens, baths, and laundry rooms. Maintenance is easy, and no long-term upkeep is required. Just wipe down daily with soap and water.

STATEMENT SURFACES

Designed to resemble surfaces like Carrara marble, distressed pine or raw steel, the potential applications of THINSCAPE® Performance Tops are endless. Install it with an undermount sink or route it into custom shapes for shelves or tables — its strength prevents it from cracking, bending or bowing.

We eliminated the need for polishing or extensive edge detailing. Simply cut and sand with stationary, hand and power tools.

A MULTI-PURPOSE MATERIAL

THINSCAPE® Performance Tops have benefits beyond aesthetics. Easy to cut and install with dry woodworking tools, they're well suited to contemporary floating or integrated countertop styles, cutout sinks, cooktops and more. Sleek, elegant, and room-defining.

Sustainability is reshaping the landscape of design. We're investing in eco-friendly materials manufactured in the USA for a better future.

ECO-FRIENDLY & SIMPLE TO SOURCE

Manufactured in the USA, THINSCAPE® Performance Tops are an engineered composite that are GREENGUARD Gold certified for indoor air quality. US manufacturing makes it readily available without tariffs or other supply-chain snags.

SLAB CHOICE

TS101
Distressed Pine

TS102

TS503
Italian Carrara

TS504
Volakas Marble

A top-down photograph of a white marble surface with grey veining. In the upper right, there is a stack of folded beige linen napkins. To the left of the napkins is a single bright orange. To the right, a portion of a light green ceramic plate is visible, containing several more bright oranges. The lighting is soft and even, highlighting the textures of the marble and the napkins.

A global leader in
engineered surfaces,
Wilsonart is equal
parts art and engineering.

ABOUT WILSONART

Wilsonart, a world-leading engineered surfaces company, is driven by a mission to create surfaces people love, with service they can count on, delivered by people who care.
