

Modern Mill ACRE

ACRE offers a sustainable alternative to wood decking that doesn't sacrifice performance. Made from upcycled rice hulls, ACRE looks like real wood and feels just as comfortable under your feet, even in the hot sun. But ACRE stands up to the elements—including UV, fire, water, salt, chlorine, insects and fungus. It's guaranteed not to crack, splinter, swell, or rot, and it keeps looking good year after year.

You Can Customize It!

Takes paints and stains for colors and creative possibilities. Ideal for multi-color planking too!

Maywood, IL
1401 St. Charles Rd.

F 773.847.7798

You Can Thermoform It!

With the application of heat, you can bend, mold and manually shape it!

You Don't Need Special Tools!

ACRE is extremely easy to work with using standard woodworking tools and processes.

It's Water, Weather and Pest Resistant!

ACRE doesn't contain a single wood fiber so it won't splinter, warp, rot or trap moisture.
