

The Hovr Bracket System Now in stock!

The Hovr Bracket System sets the new standard for floating shelves. It allows industry professionals to make floating shelves with confidence. It provides a standardized way to install floating storage that has maximum customer safety & usage capabilities. No more sagging, shelf failure, or slanting. Get peace of mind knowing your customers are in good hands & you will not be receiving a call back about the floating shelves sagging or failing over time.

SAFE & SECURE

With the Hovr Bracket System, say goodbye to sag or slants over time. It allows for secure floating shelves that stand the test of time.

13X THE STRENGTH

Hovr's average weight load capacity for an 8 inch depth is 300lbs. This allows for your clients to be confident in your design.

ENGINEER APPROVED
