

ACRE by Modern Mill

ACRE is a sustainable, durable alternative with the look and feel of real wood. It's lightweight, strong, water resistant and guaranteed not to rot, crack or splinter.

ACRE is easy to cut and paints or stains just like wood — be sure to see our coatings guide if working with darker colors. Best of all, ACRE is made without harming a single tree, in a zero waste environment in the U.S.A. Make ACRE your finishing touch.

- Can be processed with common woodworking tools
- Thermoformable for curved applications
- Easy to glue and bond
- Excellent screw and nail retention
