

Premier Eurocase Reflekt is a breakthrough high-gloss acrylic with several innovative product qualities:

- The most scratch resistant high-gloss acrylic on the market
- Impeccable surface consistency due to cleanroom lamination
- Color richness that enhances depth and clarity

Reflekt panels consist of a premium quality MDF substrate with a co-extruded polymer high-gloss acrylic top layer. The core material is carefully selected by Premier to have low surface variance, so the Reflekt surface is not flawed by substrate imperfections.

The panels are PUR (polyurethane) laminated inside a Class-100 (ISO 5) cleanroom, which is a manufacturing process that guarantees Reflekt is as close to a perfect product as technologically possible.

Reflekt is suitable for interior vertical surfaces such as kitchen cabinets, vanities, closets, furniture, luxury garage interiors, as well as store fixtures & displays. Matching edgebanding is available too.
