

## Premier Eurocase UltraMatte

### Strategically Structured Layers of UltraMatte Sophistication

Premier Eurocase uses Senoplast's proprietary multi-layered acrylic material to engineer their UltraMatte panels, doors and drawer fronts with the utmost perfection.

- Anti-Fingerprint – top hardcoat layer has anti-fingerprint properties.
- Incredibly Smooth Matte Finish – designed to absorb the majority of light reflection creating a soft appearance and touch.
- Scratch-Resistant – top hardcoat layer developed to be the most scratch-resistant acrylic in the market.
- Color Richness – several layers are UV stabilized to ensure original color depth without fading.
- Bonding Layer – ABS natural developed for the best bond to the core material eliminating delamination.
- PureCore – made with the finest particleboard core material specified for a low surface variance.
- Cleanroom Production Facilities – every UltraMatte panel is processed in our cleanroom environment to mitigate surface impurities
