

New Leaf Performance Veneers

BEAUTIFULLY PREDICTABLE PERFORMANCE

New Leaf Performance Veneers have improved on nature, taking the beauty, depth and dimension of natural wood grain and elevating it to a level of consistency and performance unimaginable with traditional veneers.

The result is a beautifully predictable veneered surface that eliminates the old problems and sets a new standard for enduring natural style.

New Leaf Performance Veneers are available in a range of species, cut and stain combinations to accommodate diverse design styles and interior aesthetics.

The beauty of New Leaf Performance Veneers lasts far beyond traditional veneers. They are designed to maintain a flawless surface in even the most active commercial environments. A protective performance layer is applied to the top of the pre-finished veneer and integrated throughout to protect it against sunlight, water, impact and other elements that cause traditional veneers to age so quickly.
