

Salice Exedra Pocket Door System

Exedra refines and improves the deceleration concept to give a smooth, fluent, uniform and noiseless movement, regardless of the speed of door insertion.

The system can be used in a host of application to enable a significant functional optimization of space including kitchens, bars, coffee nooks, laundry rooms, wardrobes, office lockers, closets and many other storage options.

Exedra Features:

- Custom made to order for proper fitting
- Linear Dampening System allows for consistent motion of the door
- Soft opening and soft closing uniform motion
- Mechanism mounts on the outside of the cabinet which allows for optimum access to cabinet interior space
- Doors from 51 1/16" to 99 5/8" H and up to 36 7/16" W
- Up to 66 lbs
- Door projection 4 3/16" in open position
- For use with solid and frame doors from 19mm to 30mm in thickness
- All Adjustments are from the front of the cabinet
