Design with Intention

WF447 Toasted Oak / W300 White

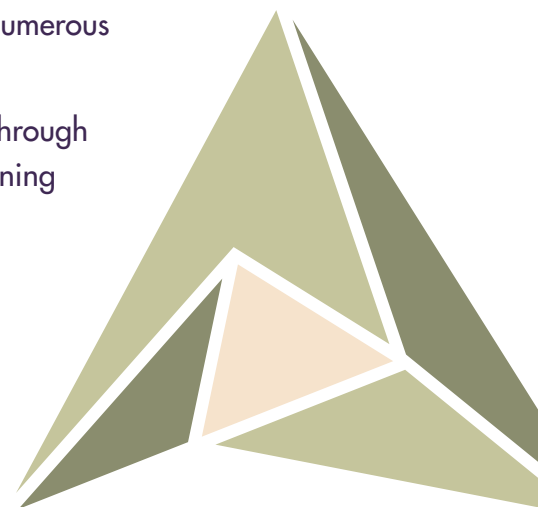

ARAUCO has built a decorative surface brand that promises to take your design proposal to another level. Specifying **PRISM TFL** brings focus, function, creativity, and balance by recognizing your client's expectations for a decorative surfacing solution.

PRISM TFL helps you balance your objectives for aesthetics, performance, and environmental responsibility. Stay true to your inspiration with perfect pairings that transform spaces.

Want to learn more about the differences between TFL and other surfacing materials; how TFL is made, sustainable attributes, and where and why it excels as a choice for numerous interior applications?

Take our CEU! We're offering this course for qualified groups in-person and through regularly scheduled virtual presentations. We are also making a distance learning format available so that you can access it whenever, wherever. Our CEU is approved for a 1-hour credit for IDCEC or AIA.

Composite Panels & Substrates

PRISM TFL is available with a range of ARAUCO's standard and specialty panel substrates and grades. We can accommodate your design considerations for things like safety and practicality by specifying fire-rated, moisture-resistant and even environmentally friendly, low-emitting substrates. Mill-to-mill availability will vary. Please contact your account representative for production capability and minimums.

Sustainability

Our substrates are made from wood fiber that is sourced as recycled, recovered, and/or FSC® certified (FSC-C019364) assuring wood used in manufacturing is derived from ethical sources.

PRISM TFL is manufactured using composite panel substrates that are certified to CPA ECC 4-19, EPA TSCA Title VI/CARB-2 and meet relevant green building standard requirements, including those found in LEED, Green Globes, IgCC, and the CALGreen Code. ARAUCO offers cradle-to-gate information through the industry-wide Environmental Product Declarations (EPDs) for particleboard and MDF manufactured in North America.

EPA TSCA
TITLE VI COMPLIANT

PRISM Symmetry

The **PRISM TFL Symmetry Program** features a wide array of complementary products. Edgebanding, HPL, 3DL, doors, wrapping and moulding products are available for the entire collection.

The partnership ARAUCO has with these suppliers will ensure that your project has a cohesive and natural look. Please refer to **prismTFL.com** for full listings and details within the TFL design of your choice.

PRISM TFL Finishes

Suede

A practical, non-directional mid-gloss finish suitable for all applications.

Boreal

A tactile, striated, deep rich, woodgrain finish.

Timberline

A random linear finish that provides authenticity to wood decors.

Medina

A distinctive wide linear finish exhibiting a varying matt/gloss effect that is suitable for woodgrains and solid colors.

Velvet

Warm, super smooth, matte finish.

Taction

An innovative finish synchronized to an exclusive contemporary oak design demonstrating a unique dual low gloss technology.
