

**FOCUS ON
THE KITCHEN**

VS

**FOR A PERFECTLY
ORGANISED HOME**

TIDY HOME ORGANISING IDEAS

EVERYTHING YOU NEED TO MAKE YOUR EVERYDAY LIFE **EASIER** **AS WELL AS MORE** **BEAUTIFUL.**

You're bound to agree with us there: we love tidy kitchens that seamlessly integrate into living spaces. However, this also gives rise to the question: where to put all those things we need every day, but don't want to display openly to all and sundry? We are talking about the ironing board and the vacuum cleaner, the washing machine and laundry baskets, cleaning materials and pantry contents, crates of drinks and recycling collection containers.

If you are a fan of space-saving, convenient and innovative solutions, you will enjoy this exciting overview of our home organising, utility and laundry room product range.

TIDY HOME ORGANISING IDEAS

SIMPLY MAKES YOU FEEL GOOD – YOUR PERFECTLY ORGANISED UTILITY ROOM

A utility room is like a laundry room, storage area, broom cupboard, pantry, larder and wine cellar rolled into one: it can be conveniently accessed without having to climb stairs and means that you are utilising every centimetre of your precious living space. As a specialist for

innovative storage solutions, our varied utility room range reflects the full extent of our expertise. In a compact space, you will find well-thought-out solutions made in Germany for furnishing the functional heart of your home according to your requirements:

LAUNDRY

Sorting and carrying your laundry – with our well-ventilated and unobtrusive VS WASH® laundry basket system, you'll actually enjoy wash-day.

RECYCLING

Space-saving waste separation and sustainable recyclables organisation – VS ENVI® unites optimum space utilisation and a quality that's a cut above the rest in your individually organised recycling collection area.

CLEANING & STORAGE

A place for everything, and everything in its place – a tidy home may not always equal a tidy mind, but being able to store cleaning materials and groceries properly and readily accessible, regardless of the container dimensions, and making good use of the available storage space down to the last centimetre definitely contributes to your well-being.

WELL-VENTILATED AND UNOBTRUSIVE: YOUR LAUNDRY MANAGEMENT SYSTEM

Have you always dreamt of a solution to the problem of having to sort dirty laundry into several piles according to type in a way that is hygienic as well as space-saving? Then you'll love VS WASH®. These elegant perforated laundry baskets can be integrated

into a base unit to keep your dirty laundry out of sight. The system is based on the same technology as the VS ENVI® waste separation system; you can therefore design your recycling and your laundry area in a matching look.

WELL-VENTILATED AND UNOBTRUSIVE: YOUR LAUNDRY MANAGEMENT SYSTEM

VS WASH® Space XX series

Supersized laundry storage

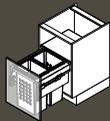

The generously dimensioned version of the VS WASH® Space series is particularly suitable for larger volumes of laundry. The fixed metal cover plate traps any unpleasant odours; at the same time, the laundry is well-aired throughout the entire time it is stored thanks to the elegant perforations. The aesthetic laundry basket can be taken out in seconds and comfortably carried to the washing machine by the ergonomically designed carrying handles.

VS ADD® Iron

A pull-out ironing board for hassle-free instant action

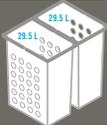

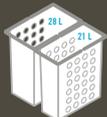

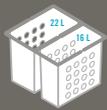

There is no more practical way to iron something at the spur of the moment: pull out your VS ADD® Iron, plug the iron in, iron your shirt or any other clean laundry, and let the smart ironing board slide back into the drawer as soon as you're finished. Job done. No hassle at all, and no getting to grips with an unwieldy ironing board.

WELL-SORTED SUSTAINABILITY: YOUR RECYCLING AREA

Smooth-running, robust and individually customisable: our waste separation system VS ENVI® provides the perfect basis for organising your recycling and sorting your waste in a way that is tailor-made for you. The larger capacity containers can hold up to 44 litres and are perfect for collecting empty PET bottles or your

recycling. Thanks to the carrying handle, the smaller containers can also be used as cleaning buckets. Either way, you're always on the green side with our VS ENVI® systems when it comes to hygiene and sustainability.

WELL-SORTED SUSTAINABILITY: YOUR RECYCLING AREA

VS ENVI® Space

The classic that can take it all, and a bit more

Thanks to its clean design and the well-thought-out mechanism, VS ENVI® Space has already proven its usefulness in kitchens all over the world. It not only offers plenty of space for variously sized containers and different types of waste; you can also store your bin liners, dustpan or brush on the pull-out metal cover plate. With its compatible dimensions, VS ENVI® Space is the first choice for comfortably separating your waste underneath a drawer or the sink.

VS ENVI® Space Pro

Plenty of space for waste separation underneath a drawer

With its larger capacity containers, the big brother of the VS ENVI® Space also offers more space for all kinds of waste and recyclables. Despite the fact that it can hold larger volumes, the system can still be fitted underneath a drawer. A real bonus point, as this provides you with additional storage space. The sides of the high-quality plastic containers are easy to clean and extremely practical in terms of everyday use.

VS ENVI® Space XX Pro

Utilise the full cupboard height with our **XXL waste specialist**

The larger a family, the more waste it produces; all of this waste still has to be properly separated. To ensure that you don't have to empty the various bins every day, it is a good idea to utilise all of the space right up to the top with the extra-high version, especially in smaller cupboards. This version is also right up there with the best in ergonomic terms, as household waste, packaging, organic waste or any other kind of rubbish can be put into the container directly from the worktop without the need to bend down.

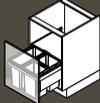

VS ENVI® Space XX Pro S

Full height waste separation at a reduced depth

Waste and materials for recycling have to be collected on a daily basis. The proven and comfortable mechanism of the VS ENVI® Space also makes this daily chore a little bit easier. Equipped with smooth-running guides and a self-closing mechanism with soft close dampers, depositing waste in the extra-high containers is a completely effortless and noiseless affair. This version with a reduced depth is particularly popular in Great Britain.

VS ENVI® Single

VS ENVI® Single: Small, but efficient

If you only have limited space available in your cosy city apartment, VS ENVI® Single is the perfect tailor-made solution for organising your waste, thanks to its compact container. Cost-efficient and hygienic, fitting this compact system takes almost no effort at all. The robust multi-purpose container can also be used for all sorts of jobs besides the collection of waste, for example as a cleaning bucket.

VS ENVI® Kick

The kick foot pedal for hands-free waste disposal

Especially when you are attacking a number of household chores, you'll sometimes find yourself standing in front of the cupboard that houses the bins with your hands full, and therefore unable to open it. That is when the VS ENVI® Kick proves its worth, as you can conveniently open the front drop with a soft kick; kick it again and it gently glides back into its normal position. This door opener can be retrofitted at any time in only a few seconds, and is a clever addition that upgrades all waste separation systems in the VS ENVI® Space range.

VS ENVI® Toolbox

The practical box for keeping your odds and ends in order

The compact and flexible VS ENVI® Toolbox is made from high-quality plastic and helps you to tidily store even the smallest things. What is so wonderful about it is that you can individually customise its interior with various accessories, and take your box anywhere. This makes the VS ENVI® Toolbox a portable caddy for your most important cleaning utensils, gardening tools or all the other things you enjoy and that make your life easier.

SAY GOODBYE TO UNORGANISED CLUTTER: YOUR CLEANING & STORAGE HUB

Let's assume you would like to furnish your utility area in such a way that you have none of your appliances, supplies, cleaning materials or other things you need every day haphazardly standing or lying around. Wouldn't you then dream of a range that contains a wide range of solid storage solutions in a matching

design that you could put together according to your requirements, like a modular system? Precisely therein lies the strength of Vauth-Sagel's range of storage systems for your cleaning utensils and supplies.

SAY GOODBYE TO UNORGANISED CLUTTER: YOUR CLEANING & STORAGE HUB

These are the benefits you will never cease to appreciate:

Everything you need every day is

- ✓ invisibly stored behind elegant fronts
- ✓ stored in a set place and instantly to hand
- ✓ organised in a way that ensures no space is wasted
- ✓ stored in a single place – your utility room or area

CLASSIC ▾

ESSENTIO ▾

You can choose between two versions:

Classic – wire perfection

This is the origin of the multi-award-winning Vauth-Sagel quality made in Germany: classic, robust wire components stand for minimum material use and are therefore economical and sustainable.

Essentio – sheet metal for a sophisticated, purist steel look

Pure appreciation of contemporary kitchens and utility rooms: the flat design of the steel sheets meets the most discerning aesthetic requirements and provides the basis for purist order.

Classic

VS TAL® Rack & Bottle

This smart pull-out unit combines two worlds

What would you say if everything you happen to need were to appear in front of your eyes in a well-ordered and tidy way? That would be amazing! You'll be amazed every time you use this elegant tall pull-out larder unit, which is a mere fifteen centimetres wide. In as little space as possible, VS TAL® Rack & Bottle combines the possibility of being able to store eight bottles in racks, and being able to use the remaining storage space in the form of three baskets according to your individual requirements.

VS TAL® Rack

Possibly the most slimline solution since the invention of storage spaces

Some recesses are so narrow that you can't imagine they could be utilised in a sensible way. However, with a width of only fifteen centimetres, VS TAL® Rack will disabuse you of that notion. Evenly distributed across the entire height of the cupboard, five baskets offer plenty of space for a comprehensive range of cleaning materials consisting of scourers, bottles, tubes and various cloths, for example. It's also great for storing the goodies for your favourite pets. Whichever, the possibilities are endless.

VS TAL® Bottle

Your special pull-out unit for thirst quenchers and your favourite drinks

If you have a large family, the demands for yummy drinks are almost never-ending. However, where to store all those favourite juices, lemonades and flavoured waters if you don't want crates everywhere? The special pull-out unit VS TAL® Bottle provides an impressive answer to this question. With a well-balanced combination of bottle holders and baskets across the entire height of the cupboard, it successfully manages the trick of storing 21 bottles in a cupboard that is only fifteen centimetres wide.

Perfect utilisation
of space in
narrow niches – our
150 mm pull-outs

VS TAL® Broom

The world's narrowest broom cupboard

Storing brooms and cleaning materials in a stylish way whilst keeping them handy is an art which this special tall larder pull-out unit masters with bravado. Everything is stored away beautifully, immediately on hand and kept out of sight. The kind of accomplished achievement that is typical for Vauth-Sagel.

Classic

VS SUB® Basket

Starring role for the all-rounder in the base unit

You'd like to store many things in your base unit, but preferably in a way that ensures you're in full control of the contents? Then the base unit pull-out VS SUB® Basket is the optimum solution for you. Regardless of whether you store cleaning utensils, groceries or even shoes in the airy baskets, the contents are moved in front of the cupboard, so you can see everything. The practical all-rounder is also extremely flexible in terms of the width of your cupboard.

VS SUB® Rack

A robust basic pull-out unit for all storage scenarios

Recesses that are not utilised are always annoying, as they are a waste of valuable storage space that could be used for your groceries. This is where the adaptable basic pull-out unit VS SUB® Rack shows off its strengths. Both the narrower as well as the wider versions are robust and wonderfully uncomplicated, and provide a well-organised basis for storing all of those things, from shoe cleaning products to preserves or empty jam jars, that you don't use on a daily basis.

VS ADD® Towel

The pull-out towel rail for utility rooms and areas

Regardless of how well-organised your utility room or area is, at some stage, there will always come the point when it is advisable to wipe or dry your hands, or to remove moisture from all sorts of items. However, maybe you can think of many other uses for this elegant pull-out towel rail.

VS ADD® Shelf

The robust organisation tool for your cupboard

If you want to store large items that are used every day, such as crates with bottles of drinks, for example, out of sight yet also safely, you will have to invest in a generously-sized storage solution for your cupboard. The sturdy organisation tool VS ADD® Shelf divides the cupboard interior into practical compartments where you can comfortably and safely store both heavy items such as crates as well as shoes and other bulky things.

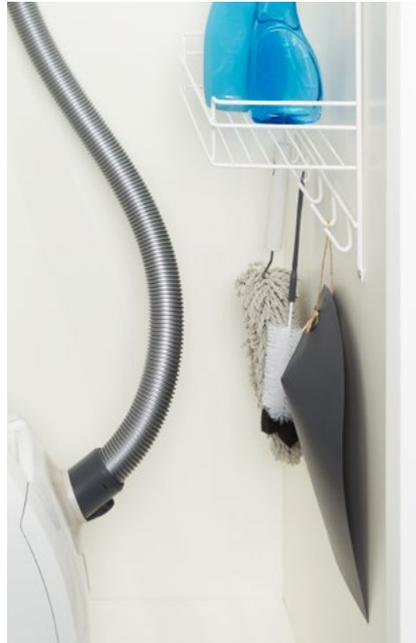

Classic

VS ADD® Depot

The unobtrusive hanging shelf for all those little useful things

Often, there is still a little space left inside a cupboard that is not being used, for example next to unwieldy appliances such as the vacuum cleaner. Maybe, you have often thought that this space could actually be utilised if there was a small, lightweight storage solution available that could be added without any major effort. That is precisely why we developed our hanging storage unit VS ADD® Depot with moderately proportioned shelves. You can now store all those previously „homeless“ cleaning materials, cloths and dusters within ergonomic reach.

VS ADD® Hook

This all-purpose hook rack won't let you down

Many housekeeping utensils such as dustpans, feather dusters or brushes, are easier to store hanging up than lying down. Besides this fact, they are also to hand in a neat and well-organised way on the purist hook rack of VS ADD® Hook. Used daily, this at first glance quite mundane accessory turns out to be a fantastic organiser that will definitely never let you down.

VS ADD® Hoover

The elegant vacuum cleaner hose subjugator

How often in your life have you wrestled with the vacuum cleaner hose, which of course never wants to stay in the position you would like it to stay in? There is no more effective tool than the VS ADD® Hoover to also get fully to grips with this aspect of the household chores. Easy to fit, it ensures that the hose does not get any kinks and is held firmly in place at all times.

SAY GOODBYE TO UNORGANISED CLUTTER: YOUR CLEANING & STORAGE HUB

The accessories VS ADD® Depot, VS ADD® Hook and VS ADD® Hoover are also available in the Essentio version in a flat sheet metal steel design.

Classic

VS SUB® Larder

The base unit for smart cleaning professionals

Specifically designed to meet the requirements of a compact cleaning materials cupboard, VS SUB® Larder Clean puts your cleaning utensils into a professional order. Brushes and cloths can be neatly hung onto the practical hook rack. The safety rail always keeps spray bottles and cans securely in place, and the integrated holder ensures that a roll of kitchen towel is always on hand in the event of messy incidents. The practical VS ADD® boxes are a sensible addition for neatly storing dishwasher tabs or scourers.

VS TAL® Larder

The elegant pull-out larder unit that's your grocery storage hub

If you feel that you would like to neatly store the groceries and other supplies that you don't constantly need in the kitchen in one place, this pull-out larder unit, which extends out all the way, is the ultimate solution for your storage needs. What is so brilliant about it is that the entire contents of the cupboard are immediately exposed as soon as you open the door, and you can just grab whatever you need without shifting everything around. You can therefore use the VS TAL® Larder as an extension of your pantry, or as your perfectly sorted store for all kinds of cleaning materials of all sizes. Beyond using it in the ordinary way, you can also individually customise your favourite storage unit with the VS Larder Flex accessory sets according to your personal requirements.

Essentio

VS TAL® Larder Iron

The tall unit that scores full marks when it comes to ironing

For some people, ironing is an almost meditative activity; for others, it is an unavoidable chore. Either way, it is better not to be reminded of its necessity all the time, simply because the ironing board and the iron are always in the way or blocking the access to storage areas. All ironing utensils can be neatly stowed away in our special ironing cupboard pull-out unit VS TAL® Larder Iron. They can be taken out in seconds, and easily stored away again. Now that ironing is as easy and uncomplicated as this, it might even gain some new fans.

VS TAL® Larder Wash

Cupboard organiser that makes short work of the laundry

Despite all of our modern technology, doing the laundry still requires a considerable amount of effort. The larger the household, the better this process should be organised; you should have to spend as little time as possible on it. With its orderly tray system, VS TAL® Larder Wash was developed especially for the handy storage of laundry utensils close to the washing machine and dryer. On several levels, it holds everything you need, from your washing powder, softener, laundry sheets, colour run and stain remover to your laundry bag, laundry balls and dosing ball, in a neat and tidy way.

VS TAL® Larder Broom

The pull-out broom cupboard with convenient trays

Anyone who regularly attacks cleaning jobs knows that a fixed and easily accessible storage area for brooms, mops and other unwieldy utensils is incredibly useful. Thanks to its professional holders, VS TAL® Broom easily keeps them in place, makes them disappear inside a cupboard and also offers well-organised storage trays for all cleaning materials, kitchen rolls, brushes, cloths and scourers. With various VS ADD® boxes, you can furnish your pull-out broom cupboard according to your requirements down to the last detail.

VS SUB® Larder Clean

The base unit for smart cleaning professionals

Specifically designed to meet the requirements of a compact cleaning materials cupboard, VS SUB® Larder Clean puts your cleaning utensils into a professional order. Brushes and cloths can be neatly hung onto the practical hook rack. The safety rail always keeps spray bottles and cans securely in place, and the integrated holder ensures that a roll of kitchen towel is always on hand in the event of messy incidents. The practical VS ADD® boxes are a sensible addition for neatly storing dishwasher tabs or scourers.

Essentio

VS TAL® Gate

The gateway to maximum storage space

Larder or dry goods store? Definitely room for both: in addition, VS TAL® Gate Pro also provides storage space for such eyesores as cleaning materials, kitchen rolls or toilet paper.

VS TAL® Gate Pro

Maximum space utilisation for your tall kitchen unit

Like a refrigerator, the VS TAL® Gate Pro features a well-balanced selection of generously-sized trays in the interior as well as on the inside of the door. This ensures that not a single cubic centimetre remains unused, and that you possess an elegant storage marvel which you can use as an extension to your pantry, a cleaning cupboard or for storing many other things that you would like to have handy, but not always on sight.

VS TAL® Gate Rack

The handy hanging wall storage unit for a cupboard door or an empty wall area

Do you still have so many things that you would love to store handy in one place, but in a storage solution that doesn't require a major fitting effort? With our handy hanging wall storage unit VS TAL® Gate Rack, you can easily turn the free insides of a cupboard or an empty wall space into an additional storage zone. The hook rack and various trays matching your individual requirements that are suitable for storing all sorts of differently sized things, from rolls of refuse sacks to the dustpan, noticeably increase your utility room or housekeeping zone's convenience level.

Essentio

VS ADD® Board

The universal designer shelf for decorative as well as organisational purposes

Everyone enjoys having personal objects which they find beautiful, useful or meaningful in their homes – even in the utility room or housekeeping area. VS ADD® Board is a universal designer shelf that is perfect for bringing some order into your life, as well as displaying your favourite things. Even the shelf element as such is eye-catching. It is wall-mounted with concealed brackets, and therefore seamlessly blends into the design of the room.

VS ADD® Box

Elegant eye-catcher with a talent for organisation

Everyone needs a functional, aesthetically pleasing and portable organiser system that can also be reconfigured ad hoc, especially for storing life's small odds and ends such as keys, screws, batteries, lightbulbs, pencils, small bottles or also decorative items such as vases, glasses or dried flowers. The VS ADD® Box is available in four different sizes with various lids and inserts, and designed to satisfy the desire for something that is pleasing to the eye as well as the desire for order.

VS ADD® Separator

The designer shelf's individual dividers

Your design options go way beyond customising your storage spaces with designer shelves. The smart dividing elements VS ADD® Separator provide the basis for dividing the designer shelves into separate areas in a matching look throughout. Two integrated magnets ensure that they are safely kept in place, and a rubber coating prevents scratches on the surface.
