More new woodgrains

8268K-17

Newlands

Newlands is an exotic Seno Etimoe wood design with quarter sawn grain and slight contrast in linear features. This medium grey with warm highlights and lowlights is available in coordinating HPL, TFL, and Edgeband.

8266K-17

Anderson Cherry

Anderson Cherry is a mix of partial cathedrals and straight grain. This medium brown with hints of taupe and chocolate in the grain is available in coordinating HPL, TFL, and Edgeband.

New finish: Silken Wood

Introducing a luxury finishing touch that revolutionizes realism and protects your woodgrains in high-traffic commercial environments. Silken Wood (17) is a luxurious matte finish that provides a silky touch. This tactile quality is paired with intriguing visual features found in a quarter sawn grain structure, like open or dense ticking in linear arrangements. Newlands and Anderson Cherry both feature this new premium finish.

- Quarter sawn grain texture
- 5 nominal glossometer reading
- 3X better durability than competing laminates, powered by *ÆON*™ Technology
